KARL/12.12.72

Detatchable plastic block door frame - comprises two or more separable components one being screwed to soffit Q48
12.12.72-DT-260745 (20.06.74) E06b-01/30
The other part of the frame can be detachably fitted onto

The other part of the frame can be detachably fitted onto the part attached to the soffit and connected at the same time, with tongue and groove jointing. A covering strip may be formed onto the opposite ends of the two parts, and the second part may cover the heads of the screws used for fastening the first to the soffit. The frame can be easily replaced, in whole or in part. 12.12.72 as 260745
